3 steps to complete your animation

Auto-animate your characters with any voice or text

The easiest way to approach animation for all ages

Applications

Movie & Video Creators

The video creator's arsenal of digital actor creation tools with professional real-time automatic facial animation.

Educators & Students

Students and teachers engage in hands-on technology that allows classroom creativity to spark with visual computing.

Web & Game Designers

Enliven videos and web pages with a virtual host for unique animated content.

Artists & Illustrators

Whether you are a doodler, illustrator or storyboard artist, you can bring your characters to life with CrazyTalk.

"Revolutionary real-time puppeteering for consumers and pro."

Essential Website Creator, April 2008

*Award for CrazyTalk5

"Crazy Talk produces great results with little effort... This is one of the cleverest one-trick ponies we've seen."

Advisor, July 2007

*Award for CrazyTalk4

"CrazyTalk Messenger holds the achievement of being the only software app to provoke laughter, horror and gasps of disbelief, all within about 10 seconds."

CNet Australia, December 2006

*Award for CrazyTalk4
