Massive Model Generator for iClone

ACCESS OVER 200,000 FREE 3D MODELS FOR CLASSROOM PROJECTS

Partnering with Google, Reallusion offers students the free, intuitive, and easy to use 3D modeling tool, Google™ SketchUp, enabling them to build any models from scratch and collaborate with the largest 3D asset resource, Google™ 3D Warehouse.

Use Google Earth to locate 3D models of architectural wonders, historical places and political capitals, and import models into iClone as props, accessories or scenes to create movies from famous locations.

1. Model design in Google SketchUp

2. Import to iClone via 3DXchange

3. Add animation and special effects in iClone
