

iClone3

3D Movie Machine

PLUG-IN TO THE VIRTUAL WORLD OF STUDENTS WITH VIDEO GAME-LIKE SOFTWARE

iClone empowers students to create 3D talking animated characters to reenact their story with customized clothing, scenes and special effects.

WHAT I DID NOT EXPECT WAS THAT THE PUPILS ENGAGED WITH IT SO MUCH THEY WANTED TO COME BACK AFTER SCHOOL TO USE IT. THE TEACHERS WERE AMAZED WITH THE IMPACT IT HAD ON PUPILS.

BRIAN RICHARDSON, ICT DEVELOPMENT TEACHER, NEWCASTLE CITY LEARNING CENTRE, UK

SOCIAL INTERACTION AND TEAMWORK IN A VIRTUAL MOVIE STUDIO

iClone encourages teamwork to bring movie projects to life. Students can each be assigned to work on different aspects of an iClone project to allow learning modules focused on writing, speaking, critical thinking and computer animation creation skills.

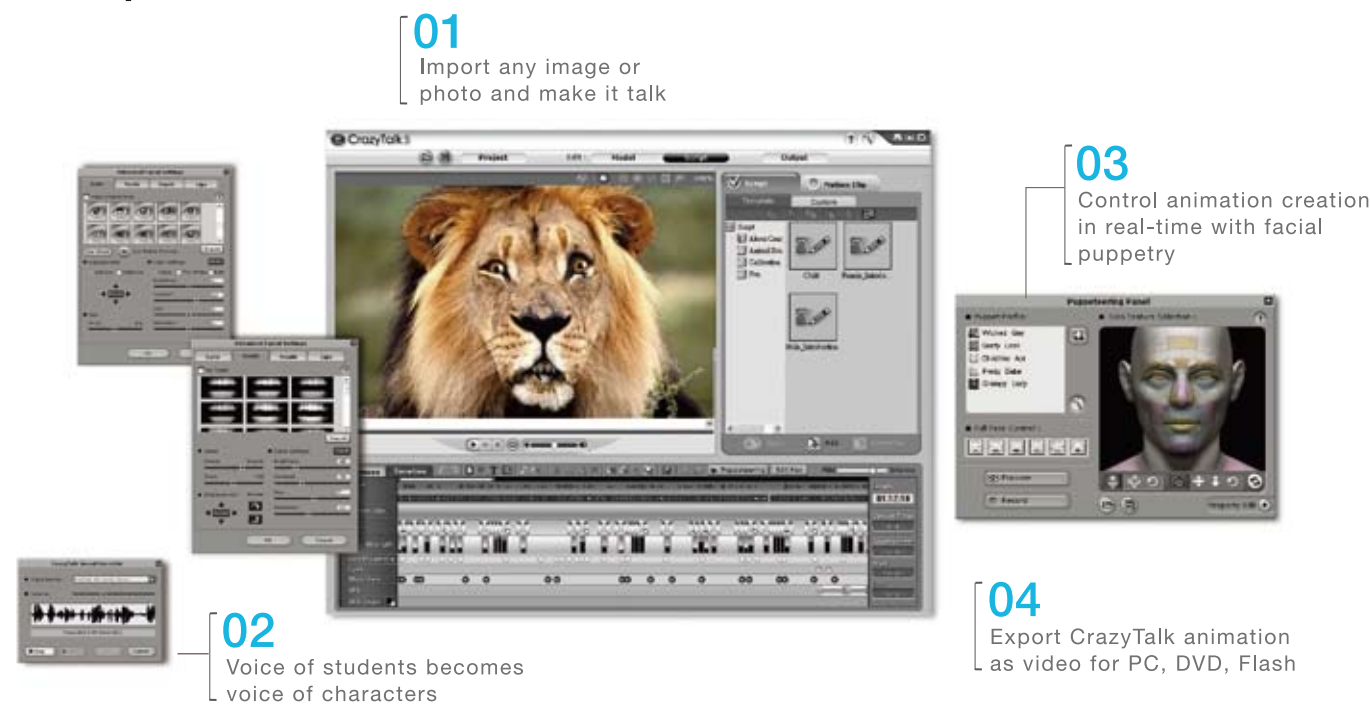

ENTRY LEVEL 3D CREATIVITY ESTABLISHES A FOUNDATION FOR CONTINUING COMPUTER GRAPHICS EDUCATION

iClone introduces students to core concepts in animation and 3D creation providing a solid base in industry standard techniques that prepare students for advancing into 3D Studio Max, Maya and other professional 3D creation tools.

LESS TIME LEARNING SOFTWARE AND MORE TIME PRODUCING RESULTS

Reallusion software is designed for students and teachers to easily comprehend and master the tools to create characters and movie projects for the classroom. Introduce iClone animation to students and guide them with intuitive "watch and learn" video tutorials.

CrazyTalk5

INTEGRATED PIPELINE FROM CRAZYTALK TO ICLONE

CRAZYTALK TALKING SCRIPTS CAN BE IMPORTED TO DRIVE FACIAL ANIMATION OF ICLONE 3D CHARACTERS

iClone3

CrazyTalk5

Face Puppet Animation Studio

ENGAGE STUDENTS WITH ACCESSIBLE ANIMATION ACTIVITIES

CrazyTalk is easy to learn, use and teach allowing teachers and students to quickly expand their learning environment with animation.

IT IS REALLY SIMPLE TO USE, EVEN WITH VERY YOUNG STUDENTS, IT TAPS INTO THE FASCINATION OF SEEING ONESELF ON SCREEN, AND HAS BAGS OF CREATIVE POTENTIAL.

ROSS WALLIS, ART TEACHER, SIDCOT SECONDARY SCHOOL, UK

ENLIVEN PHOTOS OR STUDENT ARTWORK AS TALKING CHARACTERS

Import images from digital cameras, scanners or online libraries and transform them into talking characters with CrazyTalk's easy 5 minute facial setup ready for auto animation.

CREATE MOVIES FOR CLASS PROJECTS AND SHARABLE OUTPUT

CrazyTalk animation is exported into video files supporting PC video, NTSC, PAL, HD sized video, Web video and Flash formats. Share projects via DVDs, internet, podcasts, blogs, and presentations.

ANIMATE CREATIVE WRITING ASSIGNMENTS FOR SUBJECTS ACROSS THE CURRICULUM

Student writing becomes a script and when read and recorded as audio or transformed into text to speech, CrazyTalk will automatically puppet the chosen character with instant facial animation and lip-sync.
