

CrazyTalk® 7

Auto-animate Images with your Voice

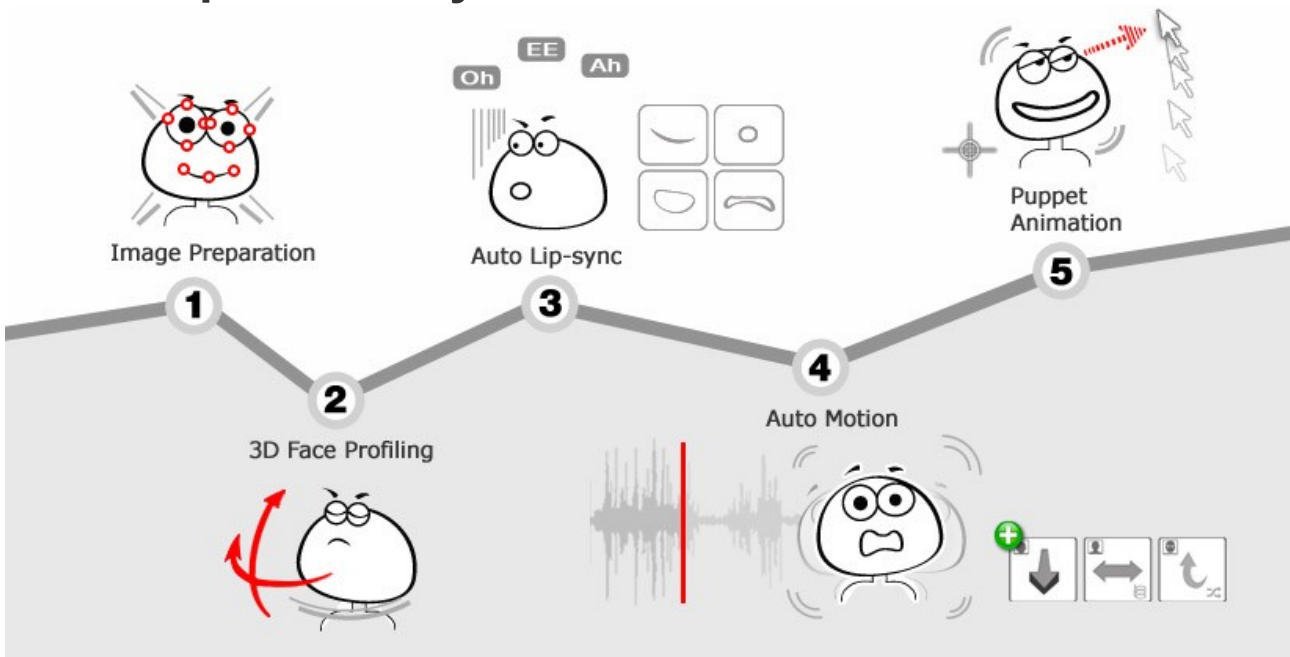

CrazyTalk7

CrazyTalk is the world's most popular facial animation tool that uses voice and text to vividly animate facial images. The brand new CrazyTalk7 contains all the powerful tools people love about CrazyTalk plus a revolutionary auto motion engine, and an intelligently simple user interface.

Five Steps to Easily Create Facial Animation

CrazyTalk7 now has an innovative auto motion technology, which allows your own voice to drive the intensity of your animations. CrazyTalk7 provides you with not only unique tools that help you vividly animate facial images, but it also includes hundreds of auto animation profiles that give your character all kinds of emotions and movement styles.

Media Review

"Version 7 ups the ante animation-wise and introduces much clever, more realistic facial movements that go far beyond just lip-synching."

- Macworld UK, November 2012

"CrazyTalk is easy enough for first-time animators to use, and full-featured enough for pros who need to quickly create characters and storylines."

- About.com, September 2012
