

Features

Facial Makeup

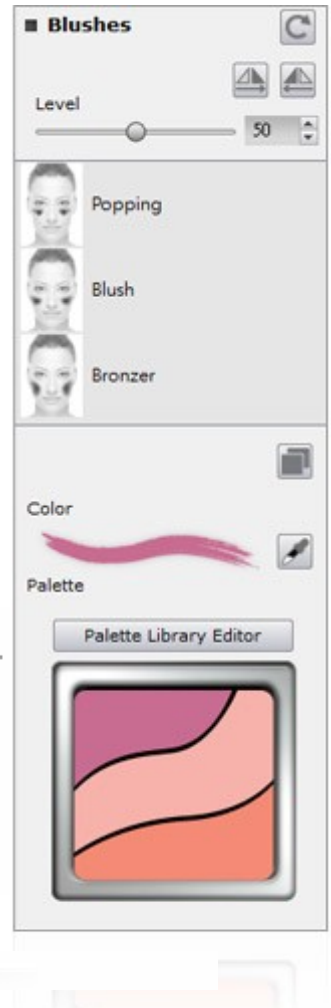

Highlight and Contour for Sculpted Looks

- Use versatile highlight and contour tools to emphasize and flatter desirable facial features and reveal a superb facial shape.
- Choose shape correction templates from long face, pear face, round face, and many more.
- Add templates to simulate a light source from the left or right.
- Use Mask Tools and up to 4 layers to freely customize and build upon existing looks. (PRO Only!)

Make your Face Glow with Beautiful Blush

- Apply bronzer and blush to produce a healthy and youthful glow and draw attention to the beautiful parts of the face.
- Compliment your facial contours with 6 categories of blush templates. Present a slimmer face with side blush, or emphasize the apple of the cheek with an attention-grabbing color.
- 3 layers for custom bronzer, blush, and popping blush layers. (PRO Only!)
- Select any desired shade by using a color palette or color picker tool. (PRO Only!)

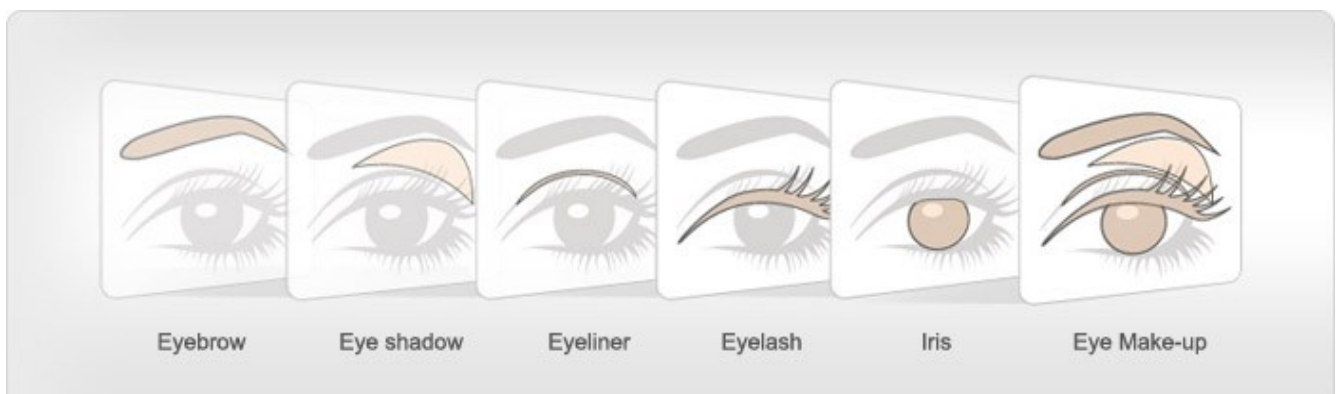

Blush Category

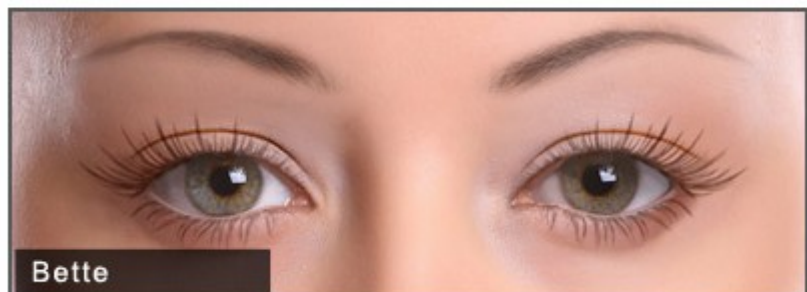

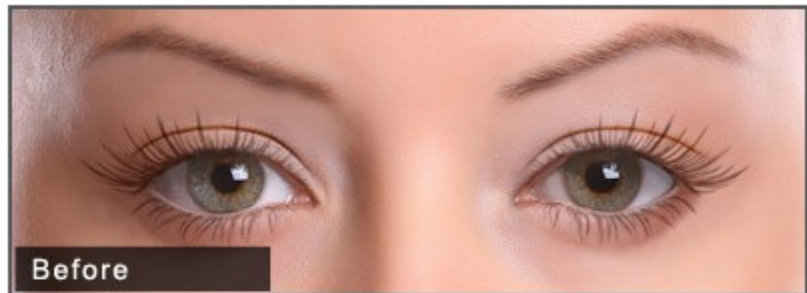

The Complete Eye Makeup Design

- A complete eye makeup system based on professional cosmetic theories.
 - More than 20 layers of makeup definition in each template. Select any style with a single click for an immediate, natural-looking boost.
- *Some samples shown below contain the add-on content [Makeup PRO](#).

Enhance Eyebrows

- Lift the face and open up your eyes with the right brows.
- Simply choose from a variety of template styles to apply real hair texture with various colors and shapes to help redefine the brow.
- Further determine the thickness and arch by adjusting the fitting areas.
- Select the desired shade from the color palette or color picker tool. (PRO Only!)

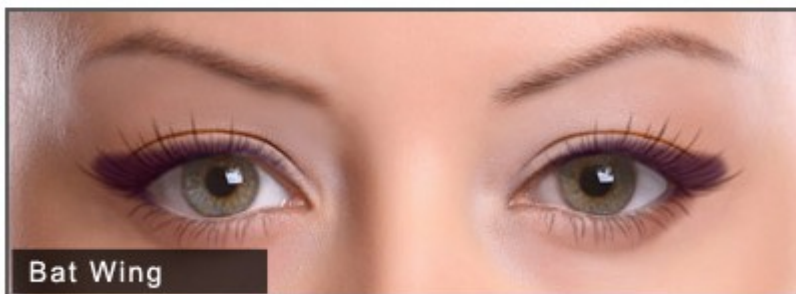

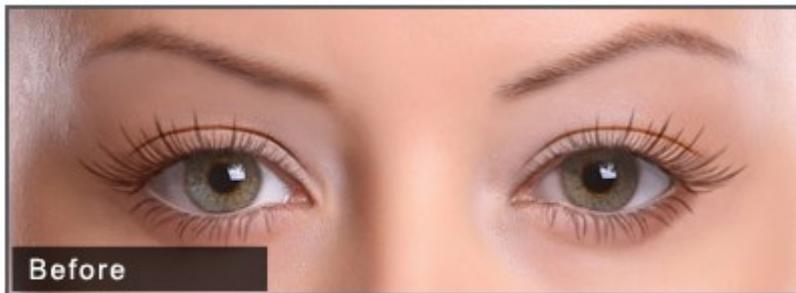

Eyebrow Template

Reshape Eyes with Eyeliner

- Create distinct or subtle styles to help redefine eye shape and position.
- Balance eye shape by using V lines at the inner or outer corners of the eyes. Apply different techniques for close set eyes, wide set eyes, round eyes, or droopy eyes.
- Manually draw the area of application to customize your own perfect fit. (PRO Only!)
- Select the desired shade from the color palette or color picker tool. (PRO Only!)

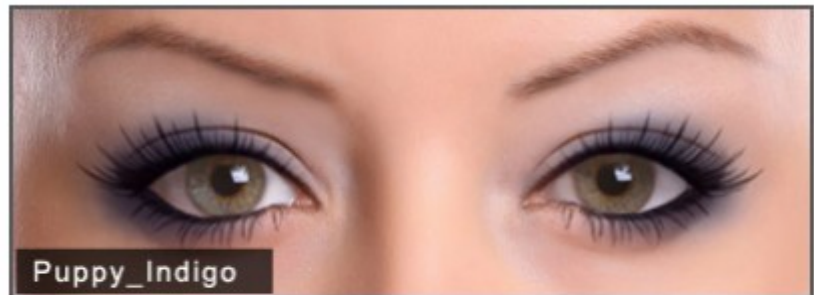

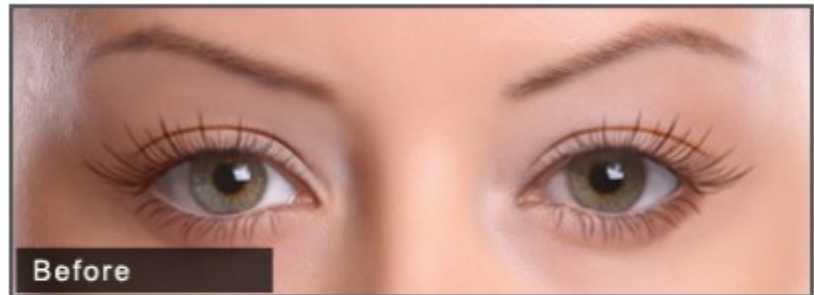

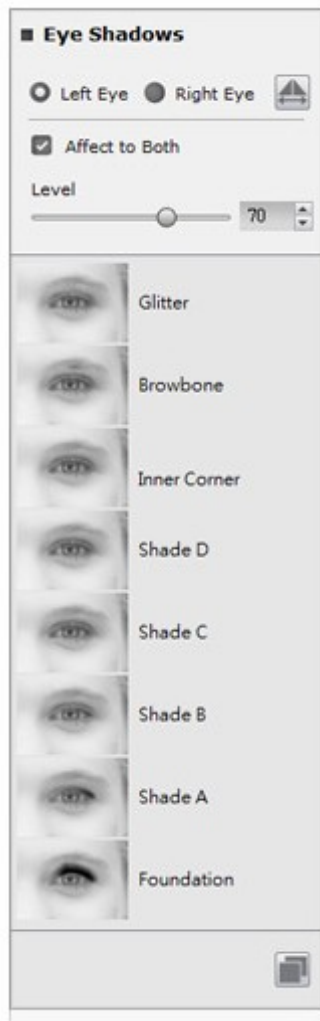

Eyeliner Template

Accentuate Eyes with Eye Shadow

- Draw attention to your eyes with gorgeous eye shadow suitable for any situation.
- Up to 8 eye shadow layers to create your own design. Give more dimension to the eyes, and even add glitter for shimmery effects. (PRO Only!)
- Select the desired shade from the color palette, or use the color picker tool to pick a color. (PRO Only!)
- Manually define the makeup application area to apply your own unique styles and save them as templates. (PRO Only!)

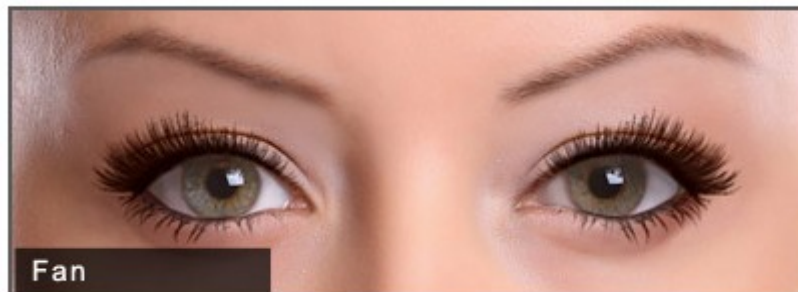

Eye Shadow Template

Mascara and Lashes

- Bring out the eyes by adding fuller, more luscious eyelashes.
- Apply templates with realistic hair texture and different lengths, shapes, and styles.
- Select the desired shade from the color palette or color picker tool. (PRO Only!)
- Manually define the length and thickness of the lashes. (PRO Only!)

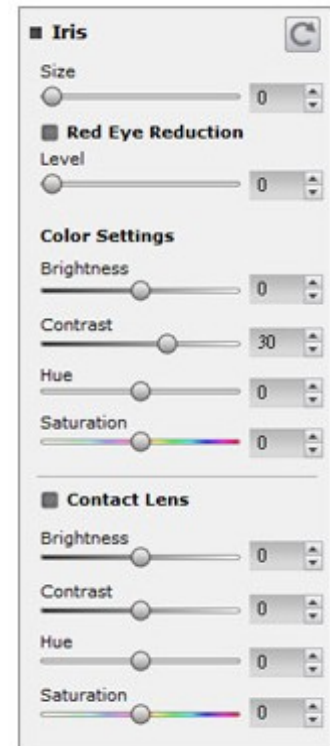

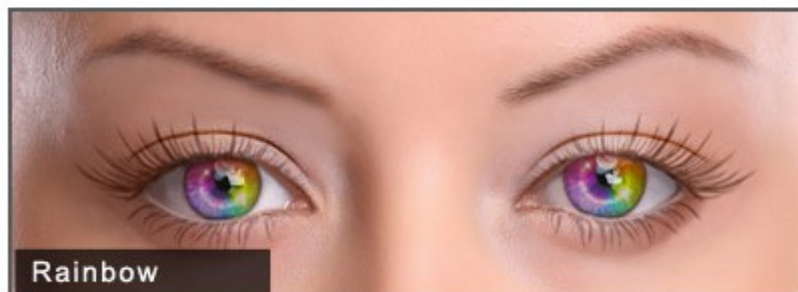

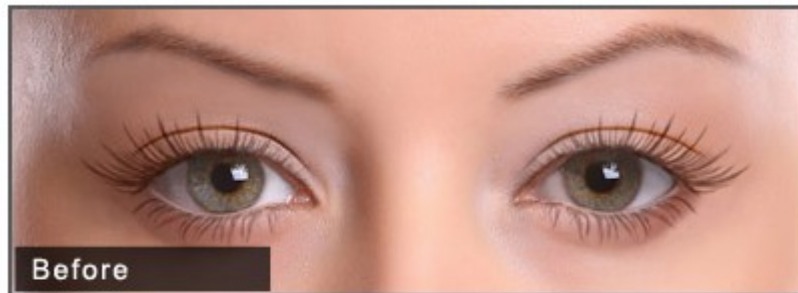

Eyelash Template

Cosmetic Lens

- Change iris color or apply intricate contact lens designs to reveal more vivid and striking eyes.
- Manually define your original iris color, size, brightness, hue, and contrast to bring out crystal clear eyes. (PRO Only!)
- Toggle slider adjustment on/off to modify cosmetic lens size, brightness, contrast, and saturation for a truly tailored look. (PRO Only!)

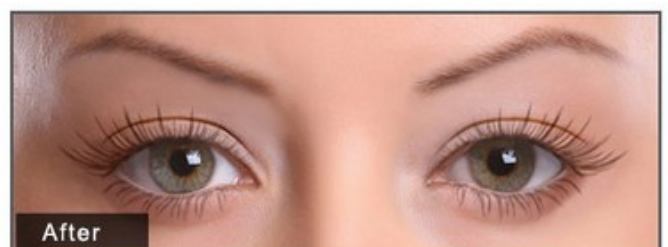

Lens Template

Red-eye Removal

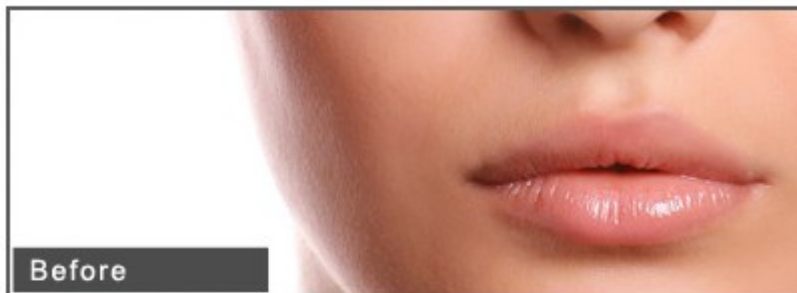

- Red-eye issues often seen in flash photography occur due to reflection from the retina.
- FaceFilter3 allows you to quickly and easily remove red eyes with a red-eye reduction feature that sets the pupils color back to normal.

Apply Lipsticks & Teeth Whitening

Luscious Lips

- Create the appearance of revitalized lips by making them glossy, full, moist and creamy with custom settings.
- Apply templates with various lipstick colors, gloss, and emphasis on the lip lines.
- Define any lip color, contrast and blur radius. (PRO Only!)
- Customize lip areas just like using a lip pencil to redefine lips shape in real life. (PRO Only!)

Lip Template

Sparkling White Teeth

- Give the subject of your photo a more confident smile with teeth whitening templates.
- Manually define the whitening area for subtle bleaching needs. (PRO Only!)
