

BONUS

Free for iClone5 Registered Members Developer Collection G5 Outfits

- G5 Male Outfit x 8
- G5 Female Outfit x 8
- Accessory x 8
- G3 Character x 5

Reallusion proudly presents some funky new fashions from some of our most prolific iClone designers. These bonus outfits are provided to give you a range of trendy options for the new G5 character set.

System Requirements

◆ Hardware

- Pentium4 2GHz or higher recommended
- 1GB RAM or more recommended
- 2GB free hard disk space or more recommended
- Display Resolution: 1024 x 768 or higher
- Color Depth: True Color (32-bit)
- Graphics Card: Support for DirectX 9.0c and Shader Model 3.0
- Video Memory: 256MB RAM or more recommended
- Video card compatible with Pixel Shader 3.0 recommended for optimized visual performance

◆ Additional Requirements:

- Sound card / keyboard / Speaker
- 3-button mouse
- DirectX 9 and WMEncoder 9 are required for WMV exporting
- Internet connection required for online activation
- Stereo devices and player are required for viewing contents with stereo vision

◆ Operating System

- Windows 7 / Windows Vista / Windows XP (With Service Pack 2 or later)
- Support for 32-bit and 64-bit operating system

iClone5

Real-time 3D Animation

iClone⁵

is real-time 3D animation with quick design & production tools for digital actors, environments, visual effects & in-house motion capturing. Use the power of drag & drop editing with access to the largest library of real-time ready 3D content, and a powerful physics engine for smooth subject interactions. Be amazed with this fully-featured 3D animation studio that has revolutionized the art of 3D animation.

KEY FEATURES

Real-time Production

- Intuitive user interface and in-screen editing.
- Just-in-time animations for studios and live TV productions.
- Real-time creativity for live-action previzualizations.

Smart Animation

- New** • Audition and record face & body motions with innovative actor puppeteering.
- New** • Blend MixMoves mocap library motions to create seamless transitions between animations.
- New** • Animate on-the-fly with real-time Microsoft Kinect motion capture. (iClone Mocap Device Plug-in)
- Create automatic facial animation with audio lip-syncing.

Digital Actors

- Replicate real-life actors with photo-to-3D actor creation.
- Design & direct 3D characters ready-rigged for body & facial animation.
- New** • Multiple character styles for human and non-human types.

Physics & Interactive Props

- New** • Natural prop physics (rigid / soft body) animation with fall, collide and bounce effects.
- New** • Interactive object controls with iScripts (LUA).
- Tons of prop templates for custom textures and dynamic designs.

Camera & Lighting

- New** • Multiple camera view settings with live switch.
- Smart filming techniques with look-at, link-to and smooth path controls.
- A variety of lighting effects using ambient light, directional light, spot light & point light.

Render & Output

- Real-time preview renders in wireframe, smooth shader and pixel shader modes.
- Popular images and video format export.
- Create eye-popping, stereoscopic 3D videos/images with customizable convergence distances.

HD Flash AVI WMV **Authentic 3D**

Stage Settings

- Modular elements and components for quick scene setups.
- Create beautiful scenery with natural world systems: terrain, sky, water, grass and tree.
- New** • Make sophisticated art directions with HDR, IBL, Ambient Occlusion, and other atmospheric styles.

Visual FX

- Template particle effects and custom parameters with attributes.
- Material effects with 7 texture channels.
- New** • Key-able post effects such as color filters, lens blur and NPR.
- New** • Cartoon rendering and cell shading allows you to create cartoon-like animated videos.

ADDITIONAL TOOL

iClone Mocap Device Plug-in

The Mocap Device Plug-in is a must-have tool that turns iClone5 into a complete mocap studio solution. You can use your own body to control virtual actors, in real-time, with motion smoothing optimizations. Lightspeed your animations and create authentic-looking motions without having to rent a mocap studio or even wear a marked jump suit! (plug-in works with PRO edition only).
