

FOR IMMEDIATE RELEASE

Reallusion launches iClone 6 - Real-time Animation & Cinematic Rendering

iClone 6 now includes support for Industry leading tools Substance, SpeedTree, PhysX & Indigo Render with 10x faster production speed to create cost-effective 3D animations

UK (February 16th, 2015) — Reallusion launches iClone 6, a substantially enhanced release three years in-the-making. iClone 6 features refined 3D scene and character animation tools, new ultra-realistic rendering plus cinematic all-in-one editing environment for filmmakers, animators and storytellers. — iClone 6, new flexible UI has settings for instant layouts to do "Animation," or "Visual Effects" or you can setup your own customized UI workspace. Apart from the vast visual and usability improvement, [iClone 6](#) is empowered with lots of exciting features that are a direct result of months of collaboration with many, industry-leading real-time technology partners: Allegorithmic Substances – IDV SpeedTree – NVidia PhysX – Indigo Render.

With enhanced visual quality, a streamlined plug-in architecture and rich instant character content, iClone 6 democratizes 3D animation by offering easy-to-use, affordable and an open pipeline for everyone to create their own professional 3D animations.

Main Features:

iClone 6 adds new 3D technologies: Substance, Indigo, PhysX, SpeedTree

iClone 6 connects hobbyists to professional artists to industry-leading technologies with support for NVidia PhysX, IDV SpeedTree, Allegorithmic Substance and Indigo Render by Glare Technologies.

Indigo RT Plug-in for Ultra-realistic Rendering

GPU acceleration with Indigo Ray Tracing rendering, enables iClone 6 users to achieve real-time production, bring more photo-realistic, cinematic look and feel to the iClone engine. To streamline this unique workflow, Reallusion provides an automatic shader mapping between iClone 6 and Indigo. In addition, users can perform custom refinement using Indigo's unique shader options, or they can choose to download Indigo's material library for even better results.

FOR IMMEDIATE RELEASE

Support NVIDIA's PhysX technology

For iClone 6 now supports NVIDIA's PhysX technology which enables natural real-time simulation for hair and cloth movement, Reallusion has also enhanced the rigid body system with a brand new visual constraints system to easier structure sophisticated physics behavior. Enhancing the creation of natural scene is possible now as iClone 6 has upgraded it's SpeedTree engine to give wind control over timeline and trees now come with multiple texture channels enhanced with normal, specular, and even transmissive effects. The powerful Substance engine is built-in to iClone 6 empowering users to easily add dynamic texture behaviors to existing iClone materials, as well as provide texture blending animation capabilities. Additionally, users can also load the vast Substance material library or create their own by using Allegorithmic's Substance Designer tool.

One of the Largest Content Marketplaces

Reallusion is not only a 3D animation software provider with 300,000 content items in 14,000 packs, but it is also steadily becoming one of the largest real-time content marketplaces for instant animation resources. With top-selling game content providers: Dexsoft, Quantum Theory Entertainment, Protofactor and Necturus; iClone users can take advantage of using high-quality characters, scenes and props in their projects.

Smart character animation creation

Animate in iClone 6 without the hassle of complicated character preparation. Anyone can animate a 3D character with auto lip-sync capability and motion puppeteering tools. The embedded character content contains customizable facial & body templates along with outfits, props, motion profiles, particles and post effect templates that allow users to create an avatar and start animating on the spot.

iClone 6 UI - Flexible Layout modes or Custom workspaces

Pricing & Availability:

iClone6 is now available at [Reallusion Online Store](#) in 2 versions for Windows PC.

.. iClone6 Standard list price: £79.99

.. iClone6 PRO list price: £159.99

.. Great value bundle deals: starts from £119

About Reallusion Inc

Headquartered in Silicon Valley, Reallusion is a leading-edge software developer providing cinematic animation tools for PC, Mac and mobile platforms. Reallusion's pioneering storytelling technology excelling at character animation, facial morphing and voice lip-sync allows fast creation of interactive avatars for 3-D real-time filmmaking and previsualization for professional post-production. Their powerful yet easy-to-use tools make character animation accessible to both Mac and PC users of all skill levels. Reallusion's development of core technologies and growing base of intellectual property firmly establish the company as power among emerging technology innovators, furthering their graphic and imaging embedded kernels to top-brand device manufacturers worldwide. <http://www.reallusion.com/>
