

CrazyTalk®8

Create Talking Animations from Images

FACIAL ANIMATION SOFTWARE

CrazyTalk is the world's most popular facial animation software that uses voice and text to vividly animate facial images. The brand new CrazyTalk 8 contains all the powerful features people love about CrazyTalk plus a highly anticipated 3D Head Creation tool, a revolutionary Auto Motion engine, and smooth lip-syncing results for any talking animation projects.

WHO USES CRAZYTALK

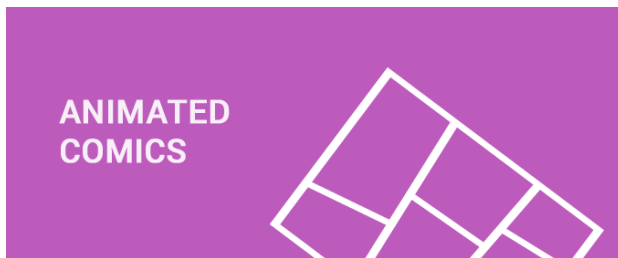

Transform any image into a starring animated talking character for any video project.

Make fun talking family video photo albums, or create uniquely animated e-cards, e-mails, and online greetings.

Let virtual representatives vividly deliver your business, branding, or training (e-learning) services.

Turn your drawings and static images into life-like characters for any comic story.

Export 3D heads and talking scripts from CrazyTalk 8 Pipeline to iClone 6, Character Creator, or any other 3D tools to work with full-body character animations.
