

# DRESSING & ATMOSPHERE

Various Outfits. Accessory Editing. Dynamic Atmosphere.

NEW in v.8!

## DRESS UP & QUICK ALTERATIONS

No matter if you wish to make your avatar into a punk star to celebrate your birthday, or formally dress it to announce your new company product, you can now freely dress up and customize your characters. With the smart accessory slot design, not only will items be automatically applied to the right places but you will also be able to easily adjust their position. Creatively adjust sizes, change colors, and customize textures to create your very own looks.

NEW in v.8!

## CUSTOM DYNAMIC ATMOSPHERE

Create the right visual atmosphere to match any talking scenario. Choose your own background images, and lighting setup combined with wind, soft-cloth physics and spring dynamics to best present unique animations.
